

AMERICAN BAKERS ASSOCIATION

Table Top 320

The American Bakers Association (ABA) is the voice of the [baking](#) industry in Washington, D.C. Since 1897, ABA has represented the interests of bakers before the U.S. Congress, federal agencies, and international regulatory authorities. Working to grow and bolster the baking industry through public policy advocacy, education and networking, ABA fights for policies that strengthen the industry, while protecting it from costly government burdens as bakers produce rolls, crackers, bagels, sweet goods, tortillas and many other wholesome, nutritious products for America's families. ABA advocates on behalf of more than 1,000 baking facilities and baking company suppliers and brings together industry leaders to share ideas, develop solutions and connect with colleagues. ABA also offers members education and training resources through its Leadership Development for Front Line Professionals program for front line supervisors, and the Cookie & Cracker Academy (CCA), a program that offers multiple levels of education specifically designed to meet the training needs of today's diverse cookie and cracker industry.
