

LENEXA MANUFACTURING COMPANY

Table Top 420

Lenexa Manufacturing Company (LMC) is a firm of experienced machine designers and assemblers. We service and produce spare parts to support baggers and slicers for bakeries. We also refurbish equipment, provide [custom design](#) and build jobs and sell hinge blades. Through innovation, technology and quality, we are focused on helping our customers be successful.

- We listen to our customers.
- We innovate to fulfill your needs.
- We deliver only quality machines and parts.
- We provide fast, experienced customer service.

LMC stands for these values. That's why we hire the most experienced professionals to design and build our bakery slicers, baggers and sealers. Each member of our team takes pride in making the best products and offering the best in customer service. Our design tools include gifted engineers, 3D drafting software and 3D printing. We make sure your part is right on paper and in the physical world. When needed, we 3D print a part, test its fit within an assembly and send it to you to test. In addition, our experienced technicians provide maintenance and service for bun baggers and bun slicers. We make buying convenient with our extensive on-hand inventory and machine shop for custom parts. We have the largest online store in the industry. Contact us for the hard-to-find, UBE replacement and unavailable parts you need.

Check out our website- www.lenexamc.com - Take a look at LMC! We make ordering easy! Search parts by name. Order blades by shaft, blade or style. You can also specify shaft length, blade diameter, style or search by part number.

At LMC, we have the best recipe for your success.
