The scope and duties delegated to the subgroup shall be approved at the time it is formed, and subsequent changes in scope or duties shall also require approval by the consensus body. The charge to the subgroup shall clearly state whether:

Generally, no representative shall have more than one vote. However, if two or more organizations appoint the same individual to represent each of them, that individual may cast a separate vote for each organization represented. The organizations shall confirm in writing to the secretariat that they are aware of and will accept the results. Additionally, representation of more than one organization by the same individual shall require approval by a majority of the consensus body, excluding the vote of that individual.

8.1.3 Voting period for letter ballots

The voting period for letter ballots shall end a maximum of four weeks from the date of issue or as soon as all ballots are returned, whichever comes earlier. An extension may be granted at the chair's option, when warranted.

A follow-up contact by letter, email or phone, requesting immediate return of the ballot shall be sent, as appropriate, to members and alternate members whose votes have not been received within ten working days before the ballot closes.

8.1.4 Absent member voting rights

Any member who is absent for a meeting vote on actions shown in Clause 8.3 herein, will have the right to vote on the action. The absent member will be contacted within 10 days after the meeting vote and given two weeks to respond with their written vote on the action. - e) Petition of five or more members of the consensus body.

8.5 Other review

Proposals for new American National Standards or reaffirmation, revision, or withdrawal of existing American National Standards shall be transmitted to ANSI for listing in *Standards Action* for comment.

The secretariat shall determine whether listing of proposed standards actions shall be concurrent with the final consensus body letter ballot and whether announcement in other suitable media is appropriate. The secretariat shall transmit a copy of the proposed new, revised, or reaffirmed standard to the administrator(s) of the appropriate ANSI group(s) at the same time.

Views and objections resulting from the above shall be dealt with in accordance with Clause 8.6 herein. Any substantive change made in the proposed American National Standard shall undergo public review.

8.5.1 Project Discontinuance

Discontinuance of a standards project after initiation (PINS) should be approved by a committee vote. ANSI shall be notified in writing of all project discontinuances.

8.6 Disposition of views and objections

When the balloting has been closed, the secretary shall forward the ballot tally to the chair of the consensus body or, if appropriate, of the subgroup; the chair shall determine whether the expressed views and objections shall be considered by correspondence or at a meeting.

Prompt consideration shall be given to the written views and objections of all participants, including those commenting on either the PINS announcement or public comment listing in *Standards Action*.

8.6.1 PINS announcement comments

If a developer receives written comments within 30 days from the publication date of a PINS (Project Initiation Notification System) announcement in *Standards Action*, and said comments assert that a proposed standard duplicates or conflicts with an existing American National Standard (ANS) or a candidate ANS that has been announced previously in *Standards Action*, a mandatory deliberation of representatives from the relevant stakeholder groups shall be held within 90 days from the comment deadline. Such a deliberation shall be organized by the developer and the commenter and shall be concluded before the developer may submit a draft standard for public review. If the deliberation does not take place within the 90-day period and the developer can demonstrate that it has made a good faith effort to schedule and otherwise organize it, then the developer will be excused from compliance with this requirement. The purpose of the deliberation is to provide the relevant stakeholders with an opportunity to discuss whether there is a compelling need for the proposed standards project. The outcome of such a deliberation shall be conveyed in writing by the developer and commenter (ideally as a joint submission) to the Board of Standards Review (BSR) for consideration should the developer ultimately submit the related candidate standard to ANSI for approval. While the outcome is not binding, participants are encouraged to develop a consensus on whether and how the standards development project should proceed.

8.6.1.1 PINS deliberation report

The outcome of a PINS deliberation shall be conveyed in writing (the "Deliberation Report") within 30 days after the conclusion of the deliberation by the developer to the commenter and to ANSI. Upon submission of the Deliberation Report, the developer may continue with the submission of the draft standard for public review. If additional deliberations take place, they should not delay the submission of the draft for public review, and an updated Deliberation Report shall be conveyed within 30 days after each deliberation. Any actions agreed upon from the deliberations shall be carried out in a reasonably timely manner, but normally should not exceed 90 days following the deliberation. Subsequently, the developer shall include all of the Deliberation Report(s) with the BSR-9 submittal to the ANSI Board of Standards Review (BSR) for

consideration should the developer ultimately submit the subject standard to ANSI for approval. Stakeholders who were involved in the PINS deliberation process may also file separate Deliberation Report(s) with ANSI and the developer within 30 days after conclusion of any deliberation for consideration by the BSR, if the standard is submitted to ANSI for approval.

8.6.2 Public review and consensus body comments

In connection with an objection articulated during a public comment period, or submitted in connection with a vote, an effort to resolve all expressed objections shall be made, and each objector shall be advised in writing (including electronic communications) of the disposition of the objection and the reasons therefore. If resolution is not achieved, the objector shall be informed in writing that an appeals process exists within procedures used by the standards developer. In addition, each objection resulting from public review or submitted by a member of the consensus body, and which is not resolved (see definition¹) must be reported to the Board of Standards Review.

When this process is completed in accordance with the written procedures of the standards developer, the standards developer may consider any comments received subsequent to the closing of the public review and comment period, or shall consider them at the next review. Unresolved objections, attempts at resolution, and any substantive change made in a proposed American National Standard shall be reported to the consensus body in order to afford all members an opportunity to respond, reaffirm, or change their vote within four weeks. The definitions of substantive changes are listed in Annex A of *ANSI Essential requirements*.

8.7 Report of final result

The final result of the voting shall be reported, by interest categories, to the consensus body.

9.0 Submittal of standard

Upon completion of the procedures for voting, disposition of views and objections, and appeals, the proposed standard shall be submitted to ANSI by the secretariat.

The information supplied to ANSI by the secretariat shall include all relevant material required by ANSI as outlined in clause 4.2.1.1 of the *ANSI Essential Requirements*. If the secretariat does not submit the proposal to ANSI within a reasonable period of time, any member(s) of the consensus body may make the submittal.

10.0 Termination of ASC

Maintenance of accreditation: In order to maintain accreditation by ANSI, an ASD shall continue to maintain procedures meeting the requirements of due process and criteria for approval and withdrawal of American National Standards contained herein and continue to maintain its status as an incorporated, registered or otherwise recognize legal entity.

A proposal to terminate an Accredited Standards Committee may be made by a directly and materially affected interest. The proposal shall be submitted in writing to the ASC and to ANSI and shall include at least the following:

- a) Reasons why the ASC should be terminated;
- b) The name(s) of the organization(s) that will assume responsibility for maintenance of any existing American National Standard(s) that is (are) the responsibility of the consensus body.

If it appears, after discussion among the proponent of the action, and the secretariat, that the desired objectives can best be reached by termination, the proposal and supporting

¹ Resolved: A negative vote cast by a member of the consensus body or a comment submitted as a result of public review where the negative voter agrees to change his/her vote, or the negative commenter accepts the proposed resolution of his/her comment.

- b) Finding for the respondent, with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant's objections;
- c) Finding that new, substantive evidence has been introduced, and remanding the entire action to the consensus body or the secretariat for appropriate reconsideration.

12.7 Unrelated Comments

New comments received that are determined by the committee to be not related to the standard under consideration do not have to receive further consideration with the draft standard being considered. Such unrelated comments should be considered for proposal for new work, and the submitter of the comments should be notified that this action is being taken.
